

12 Players (\$20) = \$240

The payoff split is proposed to be:

1. Season Winner (18 weeks) = \$120
2. Over/Under winner (18 weeks) = \$40
3. Bowl Master (weeks 16, 17 & 18) = \$40
4. Most perfect picks = \$15
5. Most weeks won = \$15
6. Highest weekly score = \$10
7. Lowest weekly score not 0pts = recognition, mocked and \$0

Total = \$240

If additional players join, we will revisit the split. I would lean at pushing up 2 & 3 next.

One winner per category

Tie breakers

1. highest weekly score, coin flip
2. most weeks played, highest 18 week score, coin flip
3. highest 18 week score, coin flip
4. first perfect pick date, second perfect pick date, coin flip
5. highest 18 week score, coin flip
6. highest 18 week score, coin flip
7. More giggles and laughs.
